**TO WHOM IT MIGHT CONCERN:**

**OUR COMPANY, KEOYANG SHIPPING CO., LTD. HAS IMPLEMENTED VICMAR'S ON-LINE CLEANING SYSTEM FOR TURBOCHARGERS AND AIR COOLERS ON 10 MAIN ENGINES (THREE MAN B&W 6L80MC AND SEVEN MAN B&W 5S70MC) AND 30 AUXILIARY MAN B&W 6L23/30 ENGINES.**

**WE ARE VERY PLEASED WITH THE VICMAR'S SYSTEM PERFORMANCE: IT MAINTAINS MAIN ENGINE TURBOCHARGERS (AIR AND GAS SIDES) IN VERY CLEAN CONDITION, SCAVENGING AIR COOLERS ARE ALSO MAINTAINED IN EXCELLENT CONDITION: PRESSURE DROP ACROSS THE AIR COOLERS IS CONSTANT AND DOES NOT INCREASE FOR A VERY LONG PERIOD OF TIME. AS A RESULT OF THIS THE INTERVALS FOR AIR COOLERS CLEANING ASHORE ARE EXTENDED.**

**THE INSPECTION OF TURBOCHARGERS AND ENGINE PARTS SHOWS NO SIGNS OF ANY ADVERSE RESULTS DUE TO USE OF CLEANING SYSTEM.**

**THE SAME GOOD RESULTS OBTAINED ON THE AUXILIARY ENGINES.**

**VICMAR'S CLEANING SYSTEM IS VERY RELIABLE AND SIMPLE IN OPERATION, WE WOULD HIGHLY RECOMMEND IT TO ANY SHIPPING COMPANY, WHO IS INTERESTED TO MAINTAIN THEIR ENGINES IN GOOD WORKING ORDER CONDITION AND AT THE SAME TIME SAVE MONEY ON THE FUEL CONSUMPTION AND MAINTENANCE COSTS.**

**SINCERELY**

**H.K. JEON**
